

SERVICES AND SOLUTIONS

HBK Assured Hardware and Calibration Contracts

HBK Assured allows you to focus on testing with your high-precision measurement equipment. With a HBK Assured Hardware and Calibration Contract, you can trust the precision of your equipment and know the cost to maintain it. You pay for calibration, and we offer you free repairs/replacements if your product fails. And in addition, you get a lot of other benefits.

Integrating all your calibration and maintenance needs into one contract

WHAT IS THE HBK ASSURED – HARDWARE & CALIBRATION CONTRACT

HBK Assured is our service contract offering, which is our recommendation for how to take care of your HBK equipment. HBK Assured bundles your needs into one contract at a competitive rate.

Standard HBK Assured contracts are offered for:

- **Hardware & Calibration:** Calibration and repair/ replacement of, for example, transducers, measurement instruments and data acquisition systems
- **Software Maintenance:** Update to new releases and technical support for HBK software products
- **Vibration Test Systems:** Service maintenance plans including regular health check, repair, maintenance and support

Our HBK Assured – Hardware & Calibration contract offers you full coverage of your equipment by combining calibration, extended warranty and premium support into one agreement at the price of a calibration.

With our contract, we will ensure that your equipment is calibrated at regular intervals and send you reminders when calibration is due. Regular calibration ensures high data quality and documentation, minimizes the risk of errors, and reduces associated costs.

- **Pay for calibration only:** The contract price is the price of a calibration and multi-year contracts are rewarded with a progressive discount for each year of the contract
- **Free Extended Warranty:** Assets covered by this contract and less than 10 years of age, will be repaired or replaced by HBK*
- **One fixed price:** For the duration of the contract you know your operating cost during the contract (for assets <10 years of age)
- **Discount on repairs, accessories and rentals:** We give you 10% discount on all your related service needs including repairs (in case of off-warranty damages or assets >10 years)
- **Easy Management:** We deliver quick and easy purchasing process with one single purchasing order and predefined invoicing schedule

**HBK equipment only*

Calibration is performed in Accredited Calibration laboratories

Fast and flexible turnaround times

Local and regional Service Centres. If products fail calibration, they can often be repaired locally

All measurements traceable back to primary standards
