

EMPOWER THE INNOVATORS

Custom OEM Sensor Days

May 14th or 15th, 2024
December 3rd or 4th, 2024
Darmstadt, Germany

The HBK Custom OEM Sensor Team is delighted to invite you for the HBK OEM Custom Sensor Solution Days at our headquarters in Darmstadt, Germany.

With more than 30 years' experience designing custom sensors for OEMs, our experienced engineers will personally guide you through the entire process.

CONNECT WITH HBK'S TEAM OF SENSOR EXPERTS TO EXPLORE INNOVATIVE SOLUTIONS FOR YOUR NEXT SENSOR CHALLENGE

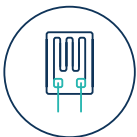

Network

Meet the HBK team and network with leading experts in your industry.

How to work together

Experience HBK's unique journey from concept to final product, with full support at every step.

Factory tour

Explore our state-of-the-art production capabilities during a guided factory tour.

Breakout Sessions

Discuss your project privately with our engineers.

Workshop

Learn about strain gauge application and OEM sensor development.

WHY JOIN?

- Benefit from valuable insights and advice from our esteemed global experts. Seize the opportunity to connect with industry specialists in your respective field.
- Private meetings enable you to receive personalized guidance tailored to your specific requirements. Bring your piece, and together we will collaborate on its design.
- Explore the possibilities of custom sensor design, rapid prototyping, and lean manufacturing of scalable volumes, finding a reliable partner in HBK.
- Immerse yourself in HBK's manufacturing processes, gaining a firsthand perspective on the development and production of strain gauges.

HOW TO REGISTER?
